## ABOUT ME

Motivated Software Engineering student and aspiring MERN Stack Web Developer with a strong foundation in frontend and backend development. Seeking internship or junior-level opportunities to gain practical experience.

## PROJECTS

### E-Commerce Web Application

- Developed a full-stack e-commerce application using MongoDB, Express, React, and Node.js
- Implemented product listing, shopping cart, and order management features
- Designed responsive UI for desktop and mobile devices
- [GitHub: github.com/hussnain-stack14/Ecommerce-web](https://github.com/hussnain-stack14/Ecommerce-web)

### Personal Portfolio Website

- Built a responsive personal portfolio using HTML, CSS, JavaScript, and React
- Showcases projects, skills, and contact information
- Focused on clean UI and modern layout
- [GitHub: github.com/hussnain-stack14/Portfolio](https://github.com/hussnain-stack14/Portfolio)

### POS (Point of Sale) Management System

- Developed a POS system to manage products, sales, and billing
- Implemented inventory management and sales records
- Built using MERN stack with RESTful APIs
- [GitHub: github.com/hussnain-stack14/POS-system](https://github.com/hussnain-stack14/POS-system)
